Atmosphere Kite Show @ Disney World Swan Hotel

Large Spirals @ Univision Festival del Mariachi

Spanish Fork Kite Garden

Kid's Kitemaking @ Tribeca Film Festival

KITE PERFORMANCES

Atmosphere Kite Shows are designed to blend into the background, providing an ever-changing visual treat for guests. By incorporating a variety of kite elements, these shows add a sense of spontaneity and excitement to the environment. Atmosphere Kite Shows can be tailored to suit the theme or color scheme of an event, seamlessly blending in while creating a unique and memorable atmosphere.

Performances can be on land or water, day or night. Flights can be staggered to seem random and spontaneous, or can be scheduled to coordinate with presentations or other entertainment elements.

KITE GARDENS

Over the years, Kiteman has curated a large collection of kites and kinetic windmills that we utilize to create our kite gardens. This collection displayed on poles or strategically placed on structures to create a destination area for exploring kites and kinetic motion devices. Guests to the kite garden can take a break, enjoy the atmosphere and take pictures.

Our **Bali Kite Garden**, consists of hand-picked kites from Bali, that includes colorful birds, butterflies, and unique creatures. The **Contemporary Kite Garden** consists of large cellular kites ranging from traditional box kites to large crystal facet kites.

KIDS KITEMAKING

Kids' kitemaking is a fun and educational activity where children design, build, and decorate their own kites. It promotes creativity, outdoor play, and learning about wind and flight. It enhances fine motor skills, teamwork, and provides a sense of accomplishment when their kite takes flight.

Kiteman has created a kite kit that can be constructed in minutes, and utilizes a "magic" wand with a short piece of line so the kite will fly, but also not interfere with other displays or each other.

CUSTOM DYE-SUBLIMATION & PROJECTS

Kiteman's state-of-the-art dye-sublimation technology infuses your design into the fabric, resulting in products that are resistant to fading, peeling, or cracking, promising a longer lifespan.

We can create custom props and decor with vibrant, full-color designs that set the atmosphere. Our eye-catching, durable signage and displays guide your guests while reinforcing your event's theme.

And don't forget promotional products - from mugs to mouse pads, we can help you leave a lasting impression on your attendees.
